HMF[®] baby drops gouttes pour bébés

Probiotic Formula

- Colic Symptoms Relief
- Supports GI Health

Formule probiotique

- Soulagement des symptômes de coliques
- Soutien à la santé gastro-intestinale

Recommended Use: Helps support gastrointestinal health. Helps reduce total crying time and duration of crying episodes in infants with colic by providing gut comfort and colic symptom relief. Helps improve colic symptoms relief in infants such as crying, fussing, or irritability. Could promote a favorable gut flora.

Recommended Dose: Infants and Toddlers (1 to 36 months old): Take at least 2-3 hours before or after antibiotics. **Instructions for adults:** Shake well before use. Dispense 5 drops (0.25 mL) into the milk bottle or in a (10 to 15 mL) beverage of your child's choice and let him/her drink it once daily.

Risk Information: Do not use this product if your child has an immune-compromised condition. Consult a healthcare practitioner prior to use if your child has fever, vomiting, bloody diarrhoea or severe abdominal pain. Stop use and consult a healthcare practitioner if symptoms of digestive upset occur, worsen or persists beyond 3 days. **Keep out of the reach of children.** This product was sealed for your protection. Do not use if box or contents are open or damaged. Refer to product insert for more information. Store in a cool, dry place, out of direct sunlight at or below 25°C.
