

CholestePure

NPN 80087257

What Is It?

CholestePure is a high-purity phytosterol complex. Phytosterols are sterol molecules, similar in structure to cholesterol, that are synthesized by plants and are present naturally in grains, nuts, seeds, fruits, and vegetable oils. CholestePure is a broad-spectrum balance of the most prized phytosterols, including beta-sitosterol, campesterol and stigmasterol.

Special Features

- Convenient phytosterol source, but without the calories and fat from specialty margarines, spreads, and salad dressings that now include phytosterol esters as a result of recent health-conscious trends
- Enhanced concentration of phytosterols, as compared to traditional Western diets that only provide about 200 mg phytosterols per day (based on beta-sitosterol content), an amount too low to provide nutritional support

Uses For CholestePure

Lipid Metabolism: Over 30 years of research and 40 clinical trials suggest that phytosterols provide significant support for healthy lipid profiles. Well-established benefits of phytosterols for lipid balance stem primarily from competition with cholesterol for occupancy in micelles, particles that carry cholesterol across the intestinal epithelium into the systemic circulation. Through this mechanism, phytosterols promote excretion of cholesterol in the form of bile acids. In turn, this helps lower blood total and LDL cholesterol, and maintain healthy cholesterol levels.

What Is The Source?

CholestePure is a phytosterol complex derived from soy, corn, rapeseed and cotton vegetable oils. Each capsule contains 450 mg total free plant sterols, providing 80% combined beta-sitosterol, campesterol and stigmasterol. Ascorbyl palmitate is derived from corn dextrose fermentation. Hypoallergenic plant cellulose is derived from pine. There is no detectable GMO material in this product.

Recommended Dose

Adults: Take 2 capsules, three times daily with meals, or as directed by a healthcare practitioner.

Warning

Consult a healthcare practitioner prior to use if you are pregnant or breastfeeding.

CholestePure

Medicinal Ingredients (per capsule)

Free Plant Sterols.....450 mg
(from soy, corn, rapeseed and cotton vegetable oils, providing 80% combined beta-sitosterol, campesterol and stigmasterol)

Non-Medicinal Ingredients: Vegetarian capsule (hypromellose, water), ascorbyl palmitate, hypoallergenic plant cellulose.

Contains: Soy
